MONTGOMERY PARK RACING GOSSIP.

Scorpio May Make a Millionaire of Ed

Memphis, Tenn., April 2-Charlie John-son told Senator Dave Nelson of St. Louis

that he had a good chance to win the first

race Wednesday with The Stewardess. The mare was left standing. She will bear watching the next time out.

Charlie Rowe came near splitting the wood with Lovable Wednesday. It was this mare's first start since the New Orleans meeting. She ran a creditable third to Apple Sweet and Oronte. Secretary John Hachmeister of the Fair Association was among the lucky ones to cash on Apple Sweet.

"That colt hasn't got a chance on his life to win this stake," declared Paddy Tomlinson, as he watched a surging crowd of Fumanity jostling each other in their mad efforts to bet on Dick Bernard in the Gaston Hotel Stakes. "I saw the colt work the other morning, and he had to be whipped out a half mile in '54 flat. That kind of a trial will get nothing in this company. If I was a bookmaker they could bet me on Dick Bernard as long as I could take the money."

Dick Bernard finished back in the ruck and everybody is saying that Durneil & Herz "gold-bricked" B. E. Smathers when they sold the 2-year-old son of Florist to him for \$8,000.

J. P. Mayberry, which ran such a fine race in the Ardelle Stakes, is named after his trainer. J. P. Mayberry belongs to Charles R. Eellison, the blond plunger. The colt stands nearly sixteen hands high and is built in proportion. He is a handsome juvenile and has all the ear marks of a first-class race horse. He will probably beat Cloverton the next time they meet.

The ring took all sorts of libertles with Scorpio Wednesday on the strength of a report that the horse had to be idden out to move five-eighths in 1:07 over a slow track the other morning. The "clocker" that set this story affeat must have timed the horse with an hour glass.

with an hour glass.

Scorpio belongs to Ed Trotter, one of the shrewdest horsemen on the Western turf. He wan enough money betting on Scorpio at New Orleans last winter to buy a whose string of useful racing tools.

REPUBLIC SPECIAL.

Memphis, Tenn., April 2-Dr. A. C. Bernays furnished the talent with something to talk about when he won the second race with Montholon, a promising 2-year-old by Merry Monarch.

Monthelon was as good as 50 to 1 and his owner bet enough to win \$5,000 on the colt. Montholon was entered to be sold for \$1,009. Will Wallace got the colt by running him

Montholon by claiming Brick Fowler for \$1.000 Brick Fowler finished third in the race. He is by Firate of Penzance-Lilly B. Montholon is only fourteen hands high. Wallace paid all the colt was worth when he bid him up to \$1.800. Dr. Bernays ob-tained Montholon as a fee for operating on an old negro servant of James C. Ghio's, Ghio is the breeder of Montholon. Benefisent, the favorite in the race, ran second to Montholon. The winner made all

Kingstelle, owned by Denny Sullivan of St. Louis and trained by Lew Cahn, came near winning the first race on the card. Kingstelle had the foot of her party and led to the sixteenth pole; then she tired and falled to finish in the money. Drummond, who had moed out in front with Kingstelle, hung gamely at the end and beat Alfred C. and Censor in a drive.

Schorr's Bensonhurst made his field look cheap in the third. He led all the way and won as he pleased from Uranium and Irene Mac.

The Montgomery Handleap consolation proved an easy victory for Waswift. Tichenor's horse galloped in front all the way. Scotch Plaid surprised the talent by finishing second to Waswift. He was heavily played for the place by his stable.

SQUALLY WEATHER GIVES SHAMROCK III NEW TEST.

New Boat Continues to Outfoot the Old, but at Times Is Barely Able to Hold Lead Once Gained.

Gourock, April 2-The third series of trials of the Shamrock III was held to-day under conditions similar to those yester

rock 1 could almost, if not quite, hold the | tional game. new boat. The latter's gear, which was Washington, April 2.—At Benning to-day the particular attraction was the steeple-chase at about two miles and a half. As a race it was almost a farce, but it termed with excitement, every horse in the race falling except Ariue, the favorite, on which Finnegan made a careful and well-judged ride, winning about as he pleased. Mc-Cafferty was suspended for three days for disobedience at the post in the first race.

The boats started on the first trial to-day from off Toward Point. Their sheets were trimmed and they reached, in close company, until abeam of Skelmorile Buoy, where they lufted and beat 10 windward to Rothesay, three miles. In cross tacking in frosh breeze the challenger again showed great ability in this important point of sailing and went further ahead and further to windward on every tack and in a half hours sailing beat the Shamrock I by four minutes. up afresh yesterday evening.

ing and went further shead and further to windward on every tack and in a half hour's sailing beat the Shamrock I b; four minutes.

The next trial was a spinnaker run down the wind. The breeze was steady and of a moderate strength. The Shamrock I had a lead of exactly one minute, but in a twenty-minutes run the challenger closed the gap, overlapped her and ten minutes later had drawn clear ahead, the distance covered being between four and five miles.

Although the challenger proved faster in this run before the wind, she hardly demonstrated the superiority expected.

After starting on another turn to windward, from Largs to Rothesay, about six miles, the Shamrock III again outfooted her opponent on every tack. The wind freshened, but the fresher it became the better It seemed to suit the new boat which finished this beat to windward half a mile ahead.

On turning, the yachts set their spinnakers for another trial down the wind. The Shamrock I was about three minutes astern at the start, but with a better wind from the bay she shortened the gap until she was barely two minutes behind. These positions were maintained to the end of the run.

Starting on another beat back across the firth the Shamrock III excelled all her previous performances on this point of sailing and gained considerably over a mile on a beat of about five miles, and when they squared away for the run home she led by a mile and a half.

On the broad, easy reach up channel the Shamrock I had the advantage of a bis, reaching she toosall, araitost a small similar sail on the Shamrock III. Neverthelees, the former was not able to hold the challenger, which dropped her raddly astern. This finished the tule on the Civie. They will be resumed off Weymouth early next week, with set races over measured courses. Shamrock I leaves here to-night in tow for Weymouth. The challenger and the Erin leave Gourock Saturday. It is expected that the two yachts will race on Tuesday. disobedience at the post in the first race.

MOUNTED DISTRICT POLICE SHOW WELL AT THE RANGE

Marked Improvement in Target Work Noticeable in Their Revolver Practice.

Mounted District police took their turn at the range yesterday and marked improvement was noticeable in their revolver work.

Patrolmen Borden, M. Gibbons and Lee The Brown's new south-paw, who will finished well together in the front rank, while Harty, Hussey and Thompson were also in the foremost division. Borden led the squad for the day, with a total of 116.

For sum total of scores the records made were the best of any district since practice opened. Three members of the First District squad, who appeared for practice, did well as an average. Patrolman Wells totaling 114 and Sergeant Bauer making 116.

Policeman Cliffe scored 78 and brought down the average somewhat.

Policeman Borden, who finished in the lead yesterday, is a member of last season's expert squad and is conceded to have a good chance for the department medal. This trophy will be contested for later by those finishing with the highest scores in each district.

Scores in detail yesterday were: Borden, 116; M. Gibbons, 114; Harty, 115; Hussey, 117. Thompson, 112; Hell, 87; O. Gorman, 85; Walsh, 63; Bierstadt, 85; Flynn, 65; Keaney, 61; Sergeant O'Hanlam, 72. First District scores were: Wells, 114; Cliffe, 72; Sergeant Bauer, 110.

Wells will be remembered as the man who used an eleven-pound trigger pull on a millitary revolver last year, using plain, open sights. With this combination he successfully opposed patrolmen having target revolvers and sights, with two-pound triggers. Second District police will practice to-day.

In the afternoon Eddie Slevers, the new pitcher, went to the firing line for a warm-ing up, and the way he shot them over demonstrates that he is in rare form. His arm is certainly all right at present, and he has every curve and kink known to the game. He is the best conditioned man on the team and the chances are will be given first crack against the Cardinals in the antessason series.

STARS IN GOOD FORM.

Fowell, Sievers Reidy and Sudhoff, the pitchers, let themselves out in the afternoon, and all showed good form. The playing of Friel at third was clever. The broad suburbanite covers a large plot of ground around third and solbles everything that comes his way in a style that bids fair to rival the remarkable grace of Jimmy Collins.

FROMM'S SCORES REJECTED

BY NATIONAL ASSOCIATION.

Revolver Records Denied by Local Officials of the National Governerning Body.

National officers of the United States Revolver Association have decided to take up definitely the scores recently made by Frank Fromm and submitted to the body

According to representatives of the asso ciation, several points have been discovered in the making of the scores which will require action, and in the meantime the records will be rejected.

require action, and in the meantime the records will be rejected.

As announced recently, Fromm shot a series of scores at the Pern Glen range, claiming that these were made at 20 yards with the revolver. The targets were official cards, secured from Secretary Himmelwright of New York and countersigned by Sam Dorman, a local expert shot. Fromm made a really sensational series of targets, and submitted these to the national body, claiming recognition therefor.

Secretary Himmelwright sent the targets back to Doctor E. H. Kessler, local representative of the body, asking that they be investigated and corroborated. After lengthy investigations, Doctor Kessler announced that he was unable to verify the date or distance at which the targets had been shot, and had found that the rules of the association had not been compiled with.

According to the rules of the national body, three witnesses are required for each target shot. All must belong to the revolver association, and the scores must be shot over a range certified as to length. Due notice must be given of the intention to shoot for a record.

None of these conditions were compiled with according to the doctor's report. Sam Dorman was the only witness whose signature was attached to the cards, and he stated that he had signed the targets, believing that they were to be used later. He was not present, he claimed, when the scores were made.

Captain W. B. Schuaf, one of Fromm's witnesses, was asked yesterday by Doctor Kessler concerning the matter. Captain Schaaf stated that he had witnessed one or two of the scores, but that, as the weather was rainy, he had been compelled to remain indoors for the remainder of the period. Investigation into the length of the range at which Fromm is said to have made the scores, said Doctor Kessler yesterday, "as

the scores develops the incit that it was thirty-three feet short of the full lifty yards.

"I have no judgment to pass upon the scores," said Doctor Kessler yesterday, "as that is not in my province. All that I can do is to submit my report to the national bedy. Fromm probably accepted the range as the full fifty yards and shot his scores thereon. Captain Schaaf informed Captain Creecy of the Seventh Police District and myself that the distance, as he believed, it was measured on that occasion, was decidedly short.

"Fromm also neglected to comply with several rules of the association as to witnesses. This was probably an oversight, but the part which will be investigated is why he submitted the scores as records after having had this matter called to his attention."

attention."

Frank Fronm is now in Cleveland, but until two weeks ago resided at No. 1210 St. Ange avenue. He is well known here and in East St. Louis, and is conceded to be an expert with the revolver.

On account of the complications arising over the matter it is said the national body may take some severe action in the case.
